Peer-reviewed Papers

**Edited Book Sections**

**Published Abstracts and Proceedings**

energy band carbon dioxide fluxes over irrigated cropland. Joint FluxNet/SpecNet Workshop, Berkeley, CA 94704, June 7-9, 2011.

and profile soil water content monitoring: A comparison of methods in terms of apparent and 
actual spatial variation. European Geophysical Union General Assembly, Vienna, Austria, April 
water sensors: Characteristics for irrigation management. Proc. 5th Decennial National Irrigation 
31. Forsee, W. J., and J. Zhu, Analysis of extreme event precipitation intensities for different 
durations from NARCCAP data, North American Regional Climate Change Assessment 
Program 3rd Users Workshop, April 7-8, Boulder, Colorado, U.S.A.
32. Forsee, W., and J. Zhu, Variability and uncertainty of extreme precipitation intensities from 
NARCCAP simulations, American Geophysical Union Fall Meeting, December 5–9, 2011, San 
Francisco, California, U.S.A.
33. Galeandro, A., J. Šimůnek, and V. Simeone, Analysis of infiltration processes into fractured and 
swelling soils as triggering factors of landslides, Proceedings of the Second World Landslide 
Forum, October 3-9 2011, Rome, Italy, 6 pp., 2011.
34. Gautam, M., and J. Zhu, Issues and guidance for artificial neural network pedotransfer function 
development, ASA-CSSA-SSSA 2011 International Annual Meetings, October 16 – 19, 2011, 
San Antonio, Texas, U.S.A.
integrated assessment in Pyramid Lake Paiute Indian Reservation. American Geophysical Union, 
Fall Meeting, American Geophysical Union, San Francisco, CA. EOS Abstract No. NH13B-1381.
Biophysical Scale Considerations for Municipal Site Developments. AGU Fall Meeting 
37. Ibragimov, N.M., R.C. Schwartz, S.R. Evett, M.Y Esanbekov, F.M. Khasanova, I.T. Karabaev, 
and L.A. Mirzaev. 2011. Tillage intensity and residue effects on early season evaporation and 
yield in mung bean. Paper 343-1. ASA-CSSA-SSSA Annual International Meeting, October 16-19, 
2011, San Antonio, TX.
Environments for Reduced Gravity. Proceedings of the 1st International Conference and 
Exploratory Workshop on Soil Architecture and Physico-Chemical Functions (CESAR), 
Research Centre Foulum, Denmark, Nov 30 – Dec 2, pp. 157-161.
with an Array of Multifunction Heat Pulse Probes. AGU Fall Meeting Abstracts, San Francisco, 
CA, December 5-9.
Probe Array for Soil Subsurface Evaporation and Heat Flux Estimates. ASA-CSSA-SSSA 
International Annual Meetings, San Antonio, TX, Oct. 16-19, 2011.
41. JONES, S.B., M. SAKAI, and M. TULLER, 2011. Partitioning Evaporation and Infiltration 
Processes with an Array of Multifunction Heat Pulse Probes. AGU International Annual 

71. Sun, D., and J. Zhu, Lateral flow across multi-parallel columns and their implications on large-scale evapotranspiration modeling, American Geophysical Union Fall Meeting, December 5–9, 2011, San Francisco, California, U.S.A.

72. Sun, D., and J. Zhu, Multi-dimensionality of evapotranspiration, 96th ESA Annual Meeting, August 7–12, 2011, Austin, Texas, U.S.A.

74. Sun, H., W. Chen, Y. Zhang, and J. Zhu, A fractal Richards’ equation to capture the non-Boltzmann scaling of water flows in unsaturated soils, American Geophysical Union Fall Meeting, December 5–9, 2011, San Francisco, California, U.S.A.

84. Vaz, Carlos M.P., Scott B. Jones, Astrid Jacobsen, Markus Tuller. 2011. Evaluation of electromagnetic sensors using acetic acid/water mixtures – the dielectric constant and electrical...
97. Zhang, R., J. Zhu, and L. Shu, Significance of conduit flow in a highly heterogeneous karst basin, American Geophysical Union Fall Meeting, December 5–9, 2011, San Francisco, California, U.S.A.
99. Zhu, J., and M. Young, Impacts of riparian zone plant water use on fractal dynamics of groundwater levels, American Geophysical Union Fall Meeting, December 5–9, 2011, San Francisco, California, U.S.A.
100. Zhu, J., and M. Young, Riparian zone evapotranspiration and groundwater system dynamics, 96th ESA Annual Meeting, August 7–12, 2011, Austin, Texas, U.S.A.

Technical Reports and Patent Applications
